NDIS plan-managed services

NDIS plan-managed services are charged in accordance with the applicable NDIS Pricing Arrangements and Price Limits. Therapy/intervention sessions also include a 10-minute non-face-to-face charge for work such as session planning, preparation of resources and brief between-session contacts.

Family Minded also accepts self-managed NDIS funding. Please confirm the applicable fee arrangements with the practice.

Payment

Session fees are payable on the day of the appointment. Direct deposit may be arranged in special circumstances.

For assessment pricing, please refer to the separate Family Minded Assessment Fees schedule.

Telephone consultations and additional work

Phone consultations are generally charged at the relevant clinician's hourly rate, calculated in 10-minute blocks. Occasional, very brief calls under 15 minutes are not generally charged separately; longer or regular consultations may be billed. NDIS or Medicare-related phone consultations are charged according to the relevant arrangements.

Letters, reports and support plans

Letters, reports and support plans are charged according to the relevant clinician's hourly rate. As a guide, a brief document may require 1-2 hours; longer assessment reports may require 3-4 hours or more.

Please allow at least 3-4 weeks for report preparation. Reports and letters are released following payment of the document fee and settlement of outstanding accounts.

Family Minded does not provide character references, forensic assessments or parenting reports for court.
